

Prowler™ 730

Robotic Inground Pool Cleaner

By Pentair Water Pool and Spa™

Two-way cleaning with remote control convenience

The Prowler 730 Remote Control provides the ultimate in automatic pool cleaning convenience. It's the computer-controlled, programmed cleaner that scrubs and vacuums your pool's bottom, walls and steps and provides supplemental filtration of pool water. The wireless radio remote control system provides two automatic cleaning options – one for the pool bottom and a second for the bottom and sides. Remote control functions allow you to override the automatic cleaning modes to perform quick spot clean-ups. Simply guide the cleaner to any area of the pool with the touch of a button.

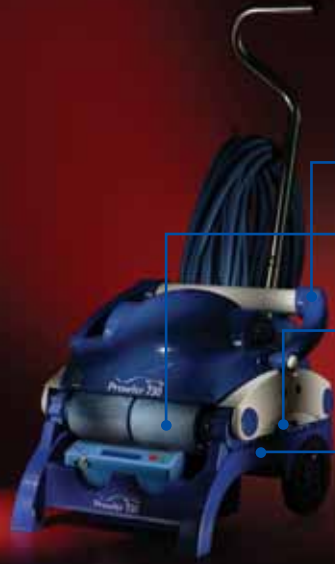

Totally independent of your pool circulation system, the Prowler 730 provides on-demand cleaning without running pumps. It requires no installation, no booster pump, and no hoses. Just plug it in and place it in your pool... it's a totally self-contained cleaning and filtration system.

Features include:

- Two-way cleaning performance:
 - Powerful vacuum action removes fine particles and larger debris.
 - Integrated filtration system captures dirt and debris in handy collection bag.
- Integrated filter reduces run time of your primary filtration system by 25% to save on pump energy use and normal wear and tear.
- Cleans all pool surfaces: gunite, vinyl, fiberglass and tile.
- Works fast: thoroughly scrubs and vacuums pools up to 20 x 50 feet in just 60–90 minutes.
- Auto-reverse feature prevents hang-ups in corners and by steps and ladders for uninterrupted service.

No other cleaner is so simple. No other cleaner provides such a complete cleaning job at such a low operating cost.

Prowler™ 730 Robotic Inground Pool Cleaner

- Sturdy handle
- Front pad rotates to loosen dirt so it can be vacuumed away
- Powered tracks keep the Prowler on the move at a constant speed...even up slopes and walls
- Convenient, protective cradle for easy storage and transport

Powerful, efficient, and smart!

The Prowler™ 730 features the patented Aqua Smart System. This intelligent program enables the cleaner to fully cover and efficiently clean any standard residential swimming pool in approximately one hour (90 minutes for larger residential pools). The high speed drive motor propels the unit across pool surfaces while a high-efficiency pump motor delivers thorough, economical cleaning performance.

Time and energy-saving features:

- Reduces your filtration system's run time.
- Removes algae and bacteria.
- Cleans and scrubs most pool steps.
- Vacuums all types of debris.
- Cleans any shape or type of pool in only one hour.
- Cleaner and key components are certified to UL standards for safety by ETL.
- One-year limited warranty. See warranty for details.

Prowler 730

Recommended pool size	20 x 50 feet	6.1 x 15.2 meters
Volume of water filtered	4,225 gal. / hr.	16m ³ / hr.
Floating cable length	60 feet	18 meters
Drive motor	24V DC high speed submersible	
Pump motor	24V DC high efficiency submersible	
Filter specification	Reusable 2 micron	
Electrical specification	115V / 60Hz	
Voltage in water	24V DC
